# ALL ABOUT ME

A picture of me

Full Name

Yan, Zhen Long

What I like to be called

cat

One word that describes you as a person

excellent

What I do when not in school  
play online games

Birthday

May 14, 2004

Where I live  
Nabalin

My Family consists of:  
Father, Grandmother, and  
my brother

An accomplishment I am most proud of  
writing 'Reading High Light' every day.

Goal I have for this year  
strengthen my English speaking.

Person I look up to  
Ms. Betty

Places I have  
lived  
Nabalin

What College I am going to go to  
I have no idea currently.

Pets  
pooch

Tom and Jerry

TV Show

The Courage to Be  
Disliked

Frankenstein's monster has lived

in Hsin Hua for two years.

NO! X

The elder people in this neighborhood do not like his hideous face, staying away from him so he feels lonely.

One day, he stopped at the local

farmers' market and saw a big advertisement.

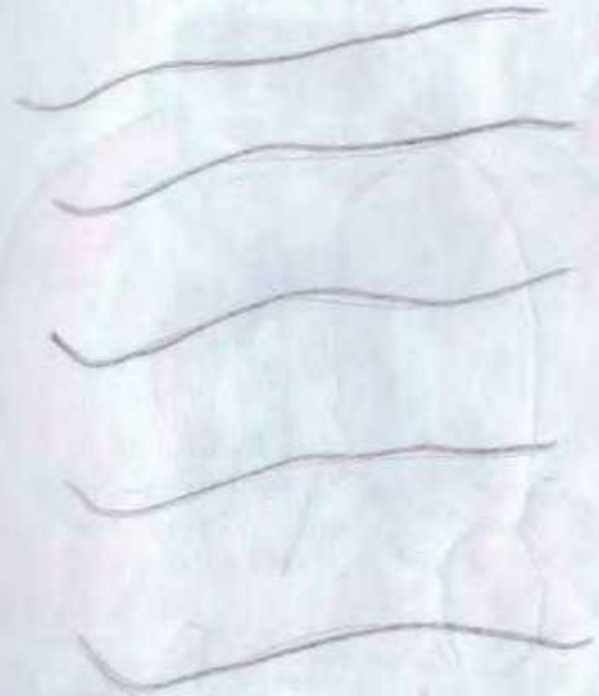

The set of words with a beauty picture persuade people to have plastic surgery at no cost.

NO COST  
Free

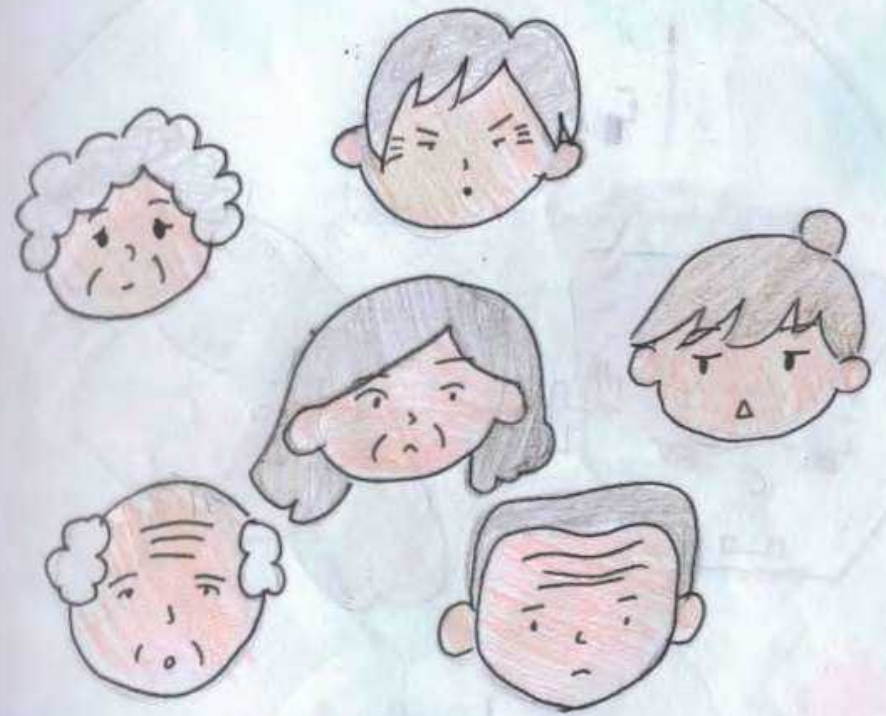

After attracted by the ad, he went home to  
operations improving his appearance for

think if he should need the medical  
a whole day.

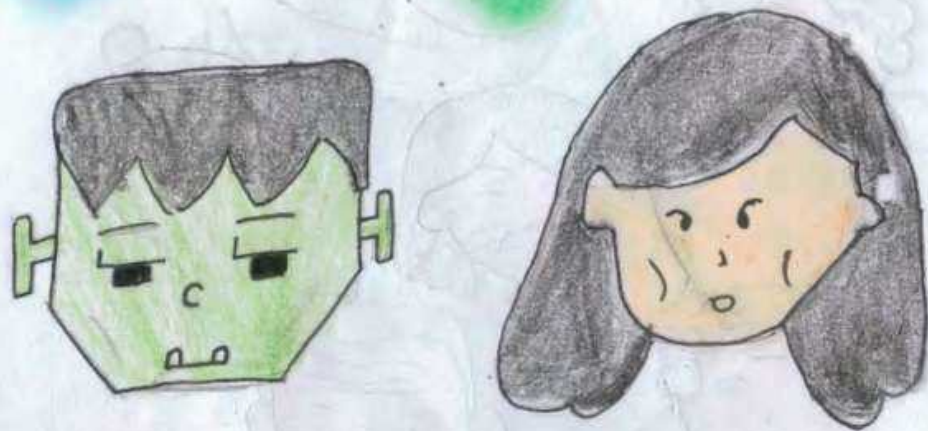

Later, he decided to undergo this surgery  
criticism of the local elderly.

because he could no longer stand any heavy

Before

He believed strongly that everything could

After

become better with his appearance improved.

On the day of surgery, the monster walked into the room to have the surgery.

The doctor told him, "This is an

experiment and it may fail."

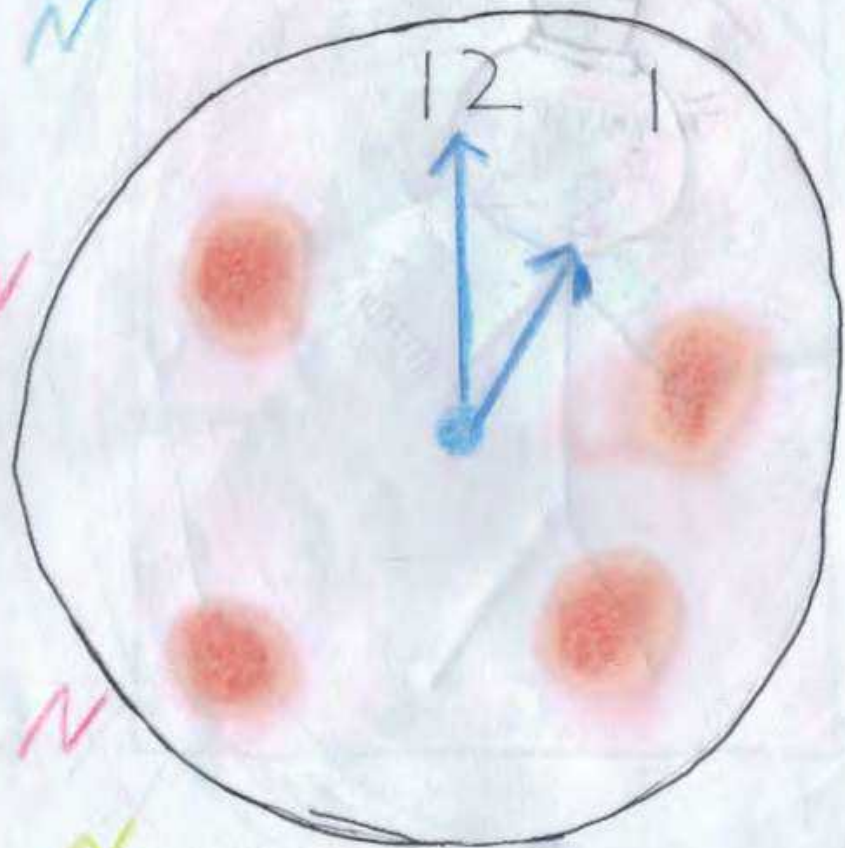

Upon hearing the words, the monster wanting  
by nurses.

to escape from there, he had been tied up

After an hour, the trapped creature

eventually woke up.

Instead of becoming an attractive  
and even more ridiculous than before.

gentlement, his face getting much more ugly,

Seeing that he learned of his condition getting worse, he jumped into the river.  
Nobody saw him anymore.

How about you?

Do you love yourself?

## Robots and Society

Group Members' Names: 嚴振龍, 林義詔, 林品軒, 羅芳誼, 林宛逸, 許邑丞, 邵楚煒

Write the problem you are trying to solve from your group's Societal Scenario Card.

In order to get rid of bugs, we are trying to invent a robot which is capable of driving pests away. On the other hand, the machine should protect original plant eaters on a farm.

Work together to describe the size of your robot or robots:

The size of our robot comes in two meters in width and 1.5 meters in highth, with a small sized human shape, the robotic device move smoothly on a farm.

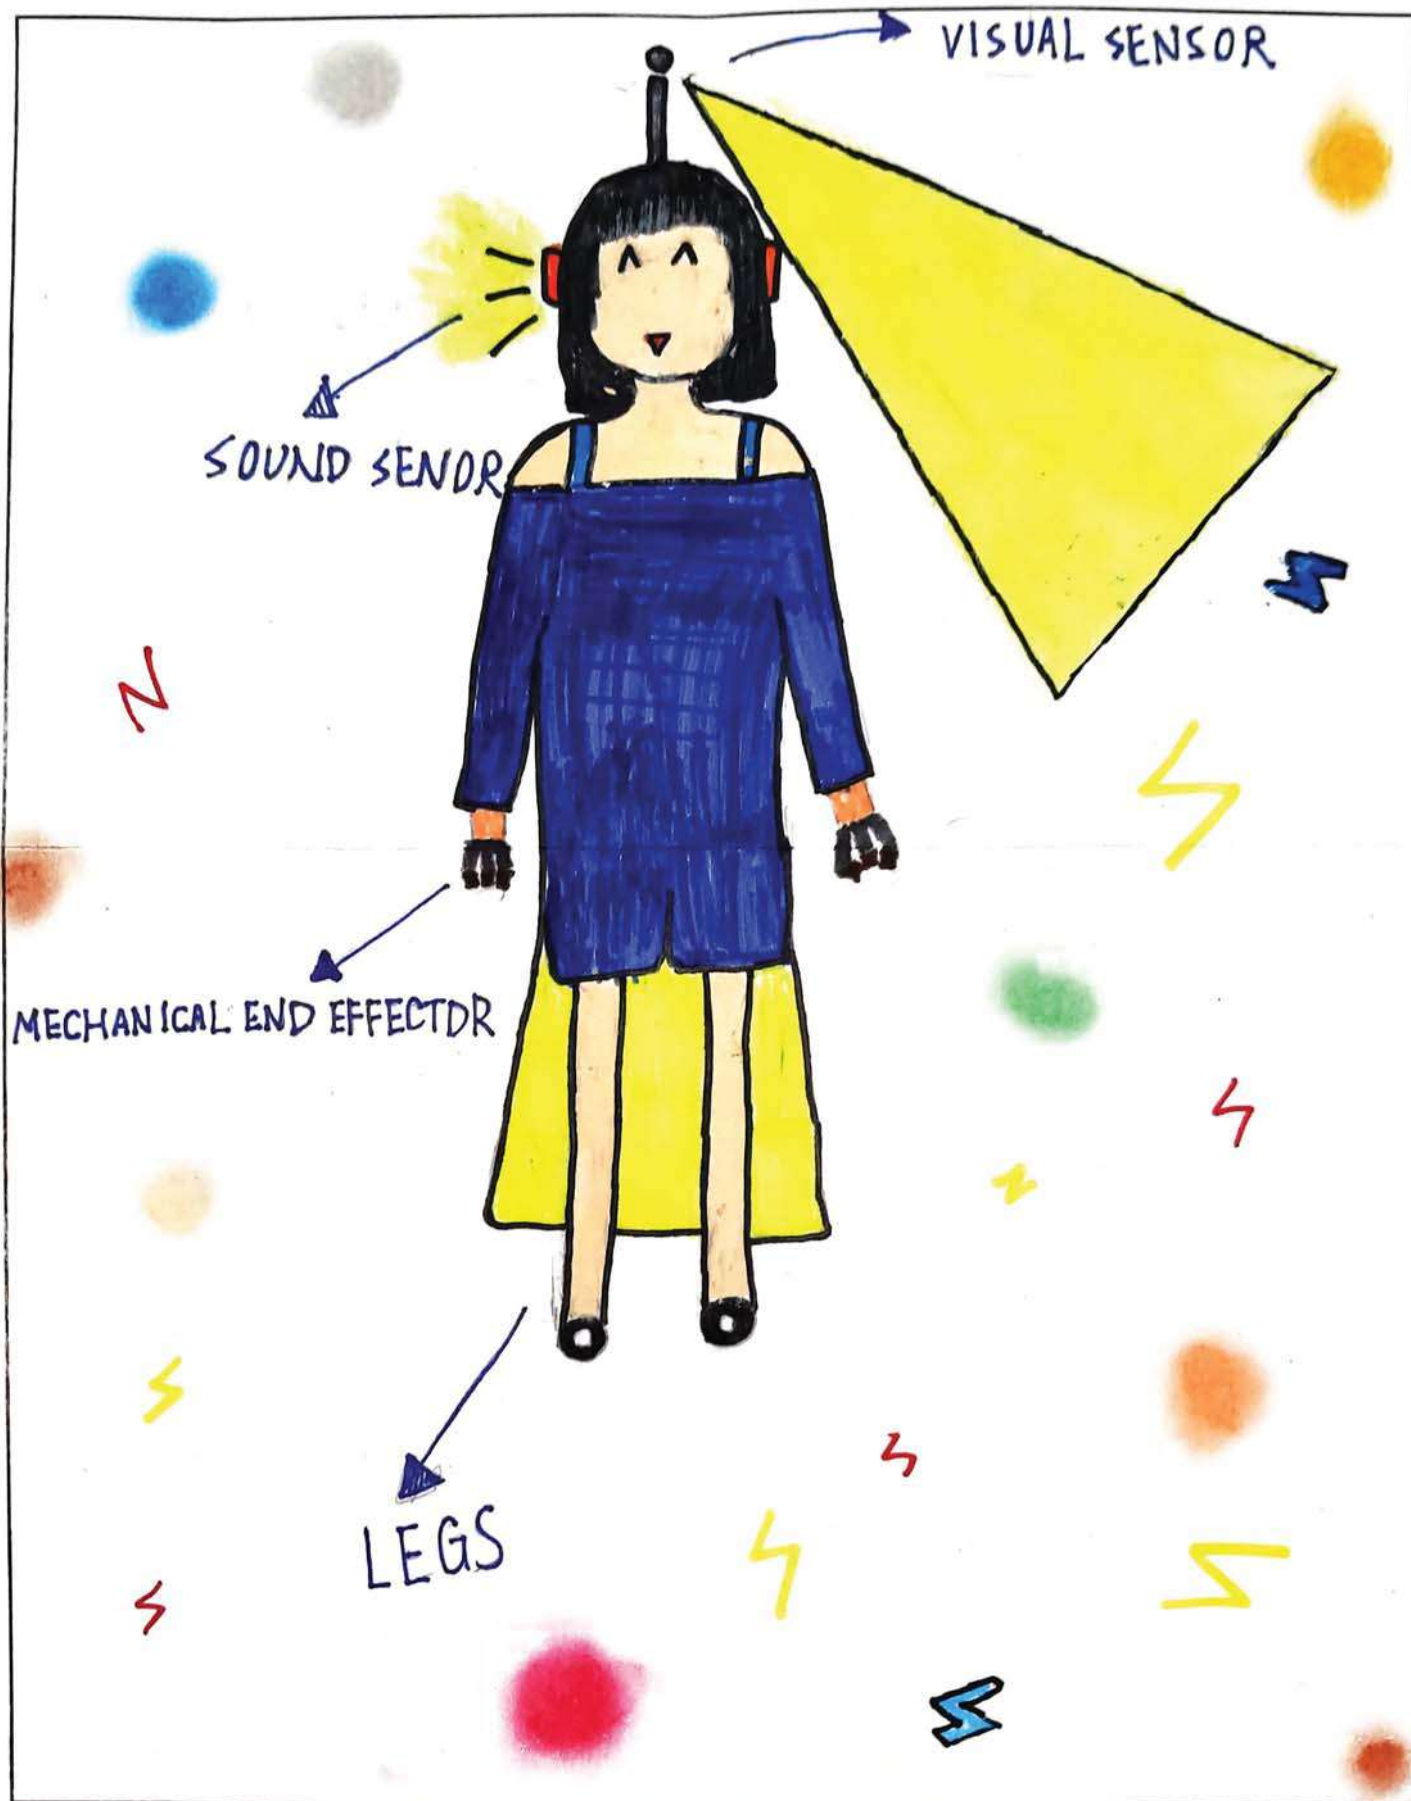

Work together to describe how you will power your robot or robots:

We will use 10-watt electricity the robotic system.  
The electrical power is generated by solar energy, geco-friendly natural resource.

List four mechanisms the robot or robots will have and explain why you chose them.

MECHANISM 1:  Mechanical end effector	WHY:  It is like a human hand and can pick up something.
MECHANISM 2:  Legs	WHY:  They are like human legs and can walk on the ground.
MECHANISM 3:  Visual sensor	WHY:  It can sense infrared and ultraviolet rays, spotting where pests are on a farm.
MECHANISM 4:  Sound sensor	WHY:  It can respond to humans' sounds, following their orders.

📁 Draw your robot in the box below and label all the mechanisms.

# 學習心得

我很高興能夠和同學在這選修課，創造出一個英文故事。我們的作品不是最好的，但是我們盡很大的努力完成。如果時間可以重來，我非常想再修習一遍，因為我很享受這門課程。這個課程中，我不只學習了寫作，也獲得了台灣的傳統文化和各式各樣的科技知識。

## Feedback

I am glad that I can create an English tale with my classmates in this elective course. Our work isn't the best, while we do make a great effort to accomplish this story together. If I could turn back time, I would desperately want to take this class again, enjoying its learning activities. In this course, not only did I acquire how to write, but I also obtained traditional cultures of Taiwan as well as a variety of knowledge about technology.

## Performance Day
